MERN Stack Developer with expertise in React.js, Node.js, Express.js, and MongoDB. Experienced in developing full-stack web applications, RESTful APIs, authentication systems, and responsive user interfaces. Strong foundation in software engineering principles, database management, and modern web technologies, with a passion for building scalable and user-centric solutions.

Core Skill:

Communication | Team Collaboration | Pressure Handling | **JavaScript** | React.js | Node.js | Express.js| Mongo DB | Rest APIs |GitHub | Postman

Experience:

MERN Stack Developer **Qalam|Feb26-july26**

-Developed and maintained web applications using MERN (MongoDB, Express.js, React.js, and Node.js**)**

-Built responsive user interfaces and integrated RESTful APIs, improving application functionality and user experience.

-Collaborated with senior developers to implement new features and resolve technical issues, ensuring timely project delivery.

-Tested and debugged applications, reducing errors and improving system reliability

Education:

University Of Punjab Lahore
BSCS (Bachelor of Science in Computer Science) **2024-2028**

Projects:

Hostel Management System

- **Developed:** A full-stack web application using React.js, Node.js, Express.js, and MongoDB to help users find hostels in different cities.
- **Implemented:** Hostel search, filtering, and listing functionality, improving accessibility for students and travelers
- **Integrated:** JWT-based authentication and authorization to ensure secure user access and data protection.
- **Designed:** RESTful APIs and MongoDB database architecture for efficient hostel and user management.

Certification:

- MERN Stack Development Program QALAM IT 2026
